

## **Collaboration and Support: Addressing the Intersection of BIT, Conduct, and Disability Support Workshop Agenda**

### **Description:**

Given the shared goals of student development, access, support, accountability, and community safety, it is not surprising that behavioral intervention teams (BITs), student conduct, and disability support often address overlapping concerns. This overlap emphasizes the need for discussion and planning on how these areas intersect, especially regarding student behavior and conduct, hospitalizations, and returning from a leave of absence. This workshop will assist institutions in developing approaches that align with best practices and provide adequate support to students.

### **Learning Outcomes:**

After completing this training, participants will be able to...

- Understand the intersection of BIT, student conduct, and disability support
- Identify appropriate practices as it relates to supporting students whose disability related behavior violates the code of conduct and/or presents risk to themselves or others
- Develop appropriate practices for students experiencing a behavioral health hospitalization
- Distinguish return to campus practices after voluntary/involuntary leave

## **Workshop Topics**

### **Intersection of BIT, Student Conduct, and Disability Support Services**

- Role of Each Office/Department
- Balancing Collaboration and Communication

### **BIT, Student Conduct, and DSS Overlap**

- Disability Considerations
- Appropriate Practices
- Returning from a Behavioral Health Hospitalization

### **Leaves of Absences and Withdrawals**

- Voluntary
- Involuntary

- General Recommendations

### **Case Law Examples**

Note: Workshops do not include a standard break. Participants are welcome to eat and/or drink during the workshop and step away for other needs as necessary. Workshop start and end times for in-person events are determined by the host site. All virtual seminars take place from 10:00 – 2:00 PM ET unless otherwise specified.
